

DAY 1	MONDAY	07/09/2026		
Time	Main Auditorium (Paraninfo)	Lecture Hall (Salón de actos)	Room 1	Room 2
8:00-8:30	Registration			
8:20-8:40	Welcome			
8:40-9:30	Plenary talk			
9:30-10:00	Coffee break			
10:00-12:15	Colloids at interfaces, membranes, films, emulsions, and foams	Colloid and interface science for biomedical applications and biomaterials	Colloid and interface science in industry, environment, sustainability, cosmetics and food	Active and bioinspired soft materials
12:15-13:45	Lunch break			
13:45-16:00	Colloids at interfaces, membranes, films, emulsions, and foams	Colloid and interface science for biomedical applications and biomaterials	Colloid and interface science in industry, environment, sustainability, cosmetics and food	Micro-, nano-, optofluidics, and rheology of complex fluids
16:00-16:30	Coffee break			
16:30-18:30	Colloids at interfaces, membranes, films, emulsions, and foams	Colloid and interface science for biomedical applications and biomaterials	Colloid and interface science in industry, environment, sustainability, cosmetics and food	Micro-, nano-, optofluidics, and rheology of complex fluids
18:30-20:00	Poster session 1 + drinks			

DAY 2 TUESDAY 08/09/2026				
Time	Main Auditorium (Paraninfo)	Lecture Hall (Salón de actos)	Room 1	Room 2
8:00-8:30	Registration			
8:30-8:40	Updates			
8:40-9:30	Plenary talk			
9:30-10:00	Coffee break			
10:00-12:15	Colloid and interface science for biomedical applications and biomaterials	Colloids at interfaces, membranes, films, emulsions, and foams	Dynamics, stability, self-assembly, and phase behavior of complex fluids	Individual and collective behaviors of colloids under external fields
12:15-13:45	Lunch break			
13:45-16:00	Colloid and interface science for biomedical applications and biomaterials	Colloids at interfaces, membranes, films, emulsions, and foams	Polymers, polyelectrolytes, gels, micro/hydrogels, glasses, and liquid crystals	Scattering, imaging, and other analytical techniques applied to colloids and interfaces
16:00-16:30	Coffee break			
16:30-18:30	Colloid and interface science for biomedical applications and biomaterials	Colloids at interfaces, membranes, films, emulsions, and foams	Polymers, polyelectrolytes, gels, micro/hydrogels, glasses, and liquid crystals	Scattering, imaging, and other analytical techniques applied to colloids and interfaces
18:30-19:20	Plenary talk ECIS			

DAY 3	WEDNESDAY	09/09/2026		
Time	Main Auditorium (Paraninfo)	Lecture Hall (Salón de actos)	Room 1	Room 2
8:00-8:30	Registration			
8:30-8:40	Updates			
8:40-9:30	Plenary talk			
9:30-11:00	Coffee break and poster session 2			
11:00-12:30	Dynamics, stability, self-assembly, and phase behavior of complex fluids	Active and bioinspired soft materials	Individual and collective behaviors of colloids under external fields	Machine learning and ai-based methods for colloids and interfaces
12:30-14:00	Lunch break			
14:00-14:20	Memorial talk			
14:20-14:40	Memorial talk			
14:40-15:30	Plenary talk ECIS			
15:30-16:00	Conference picture. Meeting at assembly point for excursion			
16:00-21:00	Excursion			

DAY 4	THURSDAY	10/09/2026		
Time	Main Auditorium (Paraninfo)	Lecture Hall (Salón de actos)	Room 1	Room 2
8:00-8:30	Registration			
8:30-8:40	Updates			
8:40-9:30	Plenary talk			
9:30-10:00	Coffee break			
10:00-12:15	Colloid and Interface Science in Industry, Environment, Sustainability, Cosmetics and Food	Polymers, Polyelectrolytes, Gels, Micro/Hydrogels, Glasses, and Liquid Crystals	Wetting Phenomena, Superhydrophobicity, Capillary, and Surface Interactions	Dynamics, Stability, Self-Assembly, and Phase Behavior of Complex Fluids
12:15-13:45	Lunch break			
13:45-16:00	Colloid and Interface Science in Industry, Environment, Sustainability, Cosmetics and Food	Polymers, Polyelectrolytes, Gels, Micro/Hydrogels, Glasses, and Liquid Crystals	Wetting Phenomena, Superhydrophobicity, Capillary, and Surface Interactions	Dynamics, Stability, Self-Assembly, and Phase Behavior of Complex Fluids
16:00-16:30	Coffee break			
16:30-18:30	Colloid and Interface Science in Industry, Environment, Sustainability, Cosmetics and Food	Polymers, Polyelectrolytes, Gels, Micro/Hydrogels, Glasses, and Liquid Crystals	Wetting Phenomena, Superhydrophobicity, Capillary, and Surface Interactions	Dynamics, Stability, Self-Assembly, and Phase Behavior of Complex Fluids
18:30-19:45	ECIS Annual General Meeting			
20:00-23:00	Gala dinner			

DAY 5	FRIDAY	11/09/2026		
Time	Main Auditorium (Paraninfo)	Lecture Hall (Salón de actos)	Room 1	Room 2
8:00-8:30	Registration			
8:30-8:40	Updates			
8:40-9:30	Plenary talk			
9:30-10:00	Coffee break			
10:00-12:30	Polymers, polyelectrolytes, gels, micro/hydrogels, glasses, and liquid crystals	Dynamics, stability, self-assembly, and phase behavior of complex fluids	Active and bioinspired soft materials	Scattering, imaging, and other analytical techniques applied to colloids and interfaces
12:30-13:00	Closing ceremony			
13:00-14:00	Lunch
